

LockettLED is ZonePro's innovative LED display crowd control barrier. LockettLED inherits all functions of steel (traditional) fences used for people and traffic management. A point of difference is that LockettLED is alive with branding and intelligent data. LockettLED increases the functionality of crowd control barrier providing marketing and sponsorship opportunities in addition to intelligent messaging and communications. LockettLED will improve crowd & traffic management and provide out of home marketing opportunities.

**Specs**

Pixel Pitch (mm)	9.6mm(vertical), 19.2mm(horizontal)
Pixel Density	10816 pixels/ m <sup>2</sup>
LED Configuration	SMD2727
Module Size	250(W) x 500(H) mm
Module Resolution	13 x 52 pixels
Driving Mode	1/2 Scan
Full Panel Size	2000(W) x 1200(H) x 180(D) mm
LED Area	2000(W) x 1000(H) mm
Panel Resolution	104 x 104 pixels / panel
Module Quantity	8 x 2 pcs/panel
Whole Weight	52 kg/panel
Viewing Angle	140°(horz.), 104°(vert.)
Minimum View Distance	15m
Brightness	6500 nit
Gray Scale	≤14 bits
Data Refresh Rate	3840Hz
Contrast	9000:1
Transparency	15%, wind-through, light-blocked
Max Power Consumption	800W/m <sup>2</sup>
Average Power Consumption	266W/m <sup>2</sup>
Work Voltage	AC100-240V
IP Grade (Front/Rear)	IP65/IP65

LockettLED is designed for full outdoor use with IP65, high bright, superior contrast, and high wind rating. Designed with easy installation and user-friendly operation and unlike traditional perimeter signs, LockettLED is designed to manage undulating surfaces. LockettLED is a lightweight modular product with quick assembly; it has a robust character demanded by high quality touring product. Front and rear access for servicing will assist technicians and operators. LockettLED will create new opportunities at many events that traditionally have been unattainable.

## Easy & Quick Deploying, Efficient Transport

2100L x 780W x 1498H mm;  
6.89' x 2.65' x 4.91'  
each cart carries 5 panels (10m<sup>2</sup>)

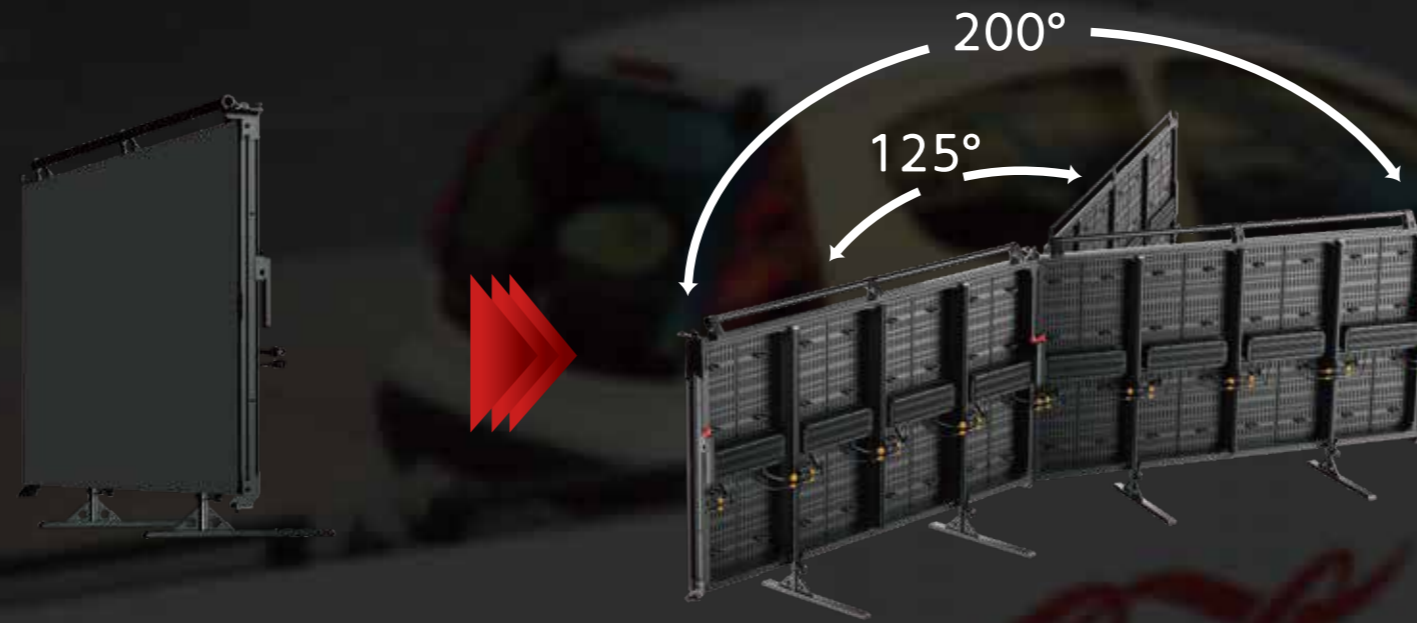

three carts make 2340mm(7.68') width that fits the width of 53ft truck dry van trailer

## One Panel, Two Kinds of Feets

### Upright, be adapted to the track

This feet makes the panel upright, and allow the panels to line along the natural track

### Upward, have a better view

This feet makes the panel 15° upward, bringing a better viewing angle to audiences.

## LockettLED, a truly outdoor solution !

### Windproof, not light through

Unique module design allows wind to blow through but lightproof, so the panel is tough in weatherproof.

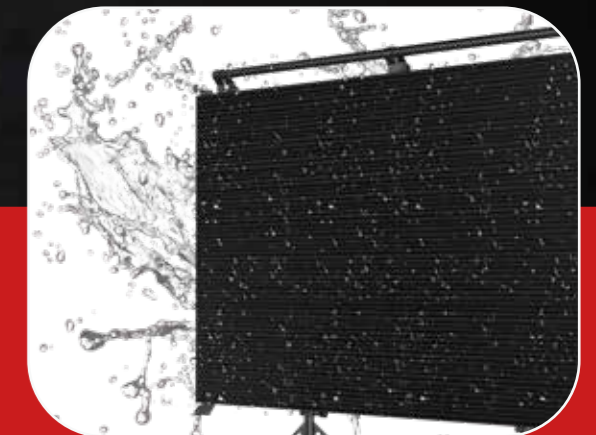

### Long Louver, High Contrast

The panel uses bright LEDs to bring high nit, besides, long louver on mask is built to shade LEDs from lights. These contribute to a very high contrast on the panel.

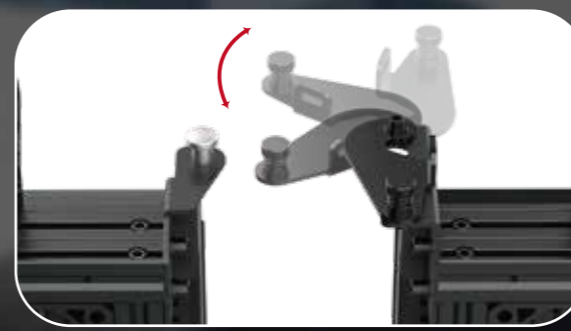

### Waterproof

Rated IP65, front & back, the panel repels the harshest of wet conditions.

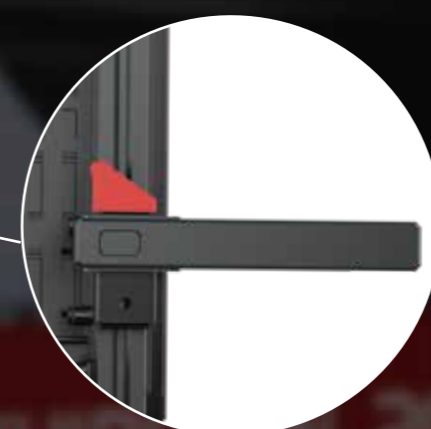

All parts back & front access

quick & smart latch

handle

quick & smart latch

captive, anti-drop & lossen
